

Good As New

Approach your home with pride, enjoy the 'natural' just laid look month after month.

As a proud homeowner, you're tired of pulling weeds, scraping moss and pressure washing to keep your drive clean and weed free. You need a solution that avoids the hard physical work, mess and disruption.

Greener Gardens offers cost effective services for your patio and drive. Our extensive knowledge and integrated approach ensures we have a plan to help you whilst protecting the environment.

Our plans combine both physical and natural treatments for an instant clean of weeds, moss and dirt from your drive and patio. Completed without hazardous chemicals or a pressure washer and there is no need to re-sand. We can guide you to choose the best programme for affordable ongoing care.

Act today, and recover your surface to its former glory!

Cleanse

Cleans without scrubbing. Our surface treatment targets green and black mold, algae and moss on all exterior hard surfaces.

Protect

For a weed free drive and patio. Our control & protect programme controls moss, algae and weeds on your drive.

Pristine

For a clean, weed free drive and patio. Our bespoke Pristine programme means that you don't have to worry. We take care of it all.

Revitalise

Removes dirt, weeds, moss and algae without pressure washing. Combines physical and natural treatment for an instant clean.

As a local family business, we are proud of:

Drive Revitalise

Brushes and cleans without the time and mess of pressure washing.

We know that you want to show off your home with pride. Keeping hard surfaces clean, weed and moss free is often a chore with varying levels of success. You're tired of getting on your hands and knees to clear weeds and moss.

Drive Revitalise is the start to your long term affordable solution. Revitalise combines both physical and natural treatments for a 100% clearance of weeds, moss and dirt from your drive. It is completed without hazardous chemicals or a pressure washer.

We have two brushing options to kick start achieving your natural just laid look.

Basic Brush - Clears surface debris ready for Cleanse, Protect or Pristine.

Revitalise - Clears surface debris, cleans with added long lasting secondary cleaning action.

Why spend your precious time hand scrubbing, brushing and pressure washing? It's time consuming, messy and not always recommended. Revitalise is an affordable solution that tackles weeds, moss and algae without the need to re sand.

Act today, take control and recover your outdoor surface to its former glory!

Why Cleanse, Protect and Pristine?

Our technicians are licenced to apply the latest and safest products* not available to the home owner. Once applied they get to work controlling their target be it weeds, moss or cleaning. Our cleaner will lift dirt and grime and use rainfall to wash it away naturally.

We understand how and where these products can be used safely around your home, so you don't have to worry.

How It Works

Our specialist machine removes weeds, moss and algae from block paved driveway and tarmacadam surfaces whilst at the same time, giving it a rigorous clean that will give you that cared for look in front of your eyes.

The machine works through a combination of resistance against vertical pressure and the reduced rotation speed of specialist brushes. This technique removes all debris in a controlled manner and is the perfect preparation for an integrated care programme for your surfaces. This technique removes the conditions moss and weeds favour, reducing regrowth to a minimum without the need to re sand.

Why Not Just Pressure Wash?

Pressure washing can disturb the blocks that have been laid by removing the sand between them. The blocks can become wobbly and in some cases, they may even start to move and/or sink. If pressure washing is not completed accurately, it will be left streaky, giving it an unsightly appearance which can often affect the important foundation base.

*legal application restrictions apply to surface type – ask for details
